## **Note:**

It is my expectation as Petty Officers or soon-to-be Petty Officers that you are able to pack your Seabag without too much direction from the CO. I expect your uniforms to be in excellent condition and without any items forgotten. I further expect you to pack responsibly i.e. use your good judgment in what extra items you bring. Cameras are welcome. Spending money is ok. All clothing items should be stenciled or marked legibly with your name.

The above list contains items you must bring. If you still have questions, feel free to e-mail me for answers. I do not know yet if we'll have e-mail access so bring a calling card if you need to call home.
